The school encourages students to be creative.	5
Technology is available and effective for student learning.	5
Technology is available and effective for professional use.	4.8
Budget information is accessible and understandable or someone is available to answer my questions.	5

What are the strengths of the school?

The individual attention to each student

Small classroom, dedicated educators and staff, supportive environment

Small class size, student teacher relationship, relationship of students, unique learning opportunities, community oriented, kind and loving teachers

All the stakeholders work together for the benefit of the students. Students have the opportunity for diverse out-of-school experiences

What would you change about the school?

Nothing

More kids

Sometimes I would like to see more emphasis on quality work

We need a way forward to ensure Luther School has enough enrollment and funding to stay open
